

Has this file been identified as malicious? Explain why or why not.

The file is a malicious file based on the following:

1. VENDOR RATIO - 59 vendors flagged it as malicious. The ratio is very high.

2. COMMUNITY SCORE

The score of -272 indicates a high level probability of the file being malicious.

3. SECURITY VENDOR ANALYSIS

Vendor analysis show that the file is malicious based on the number of vendors that have analyzed the file.
